

# **Governance**

***The Right People Making  
The Right Decisions In  
The Right Areas***

## **Why GI Governance?**

Maximize desirable business outcomes through the efficient and effective use of technology, i.e., GIS.

The value of GIS lies in the outcome of the business process sought, not in the GIS technology alone.

# **LEVELS OF GOVERNANCE**

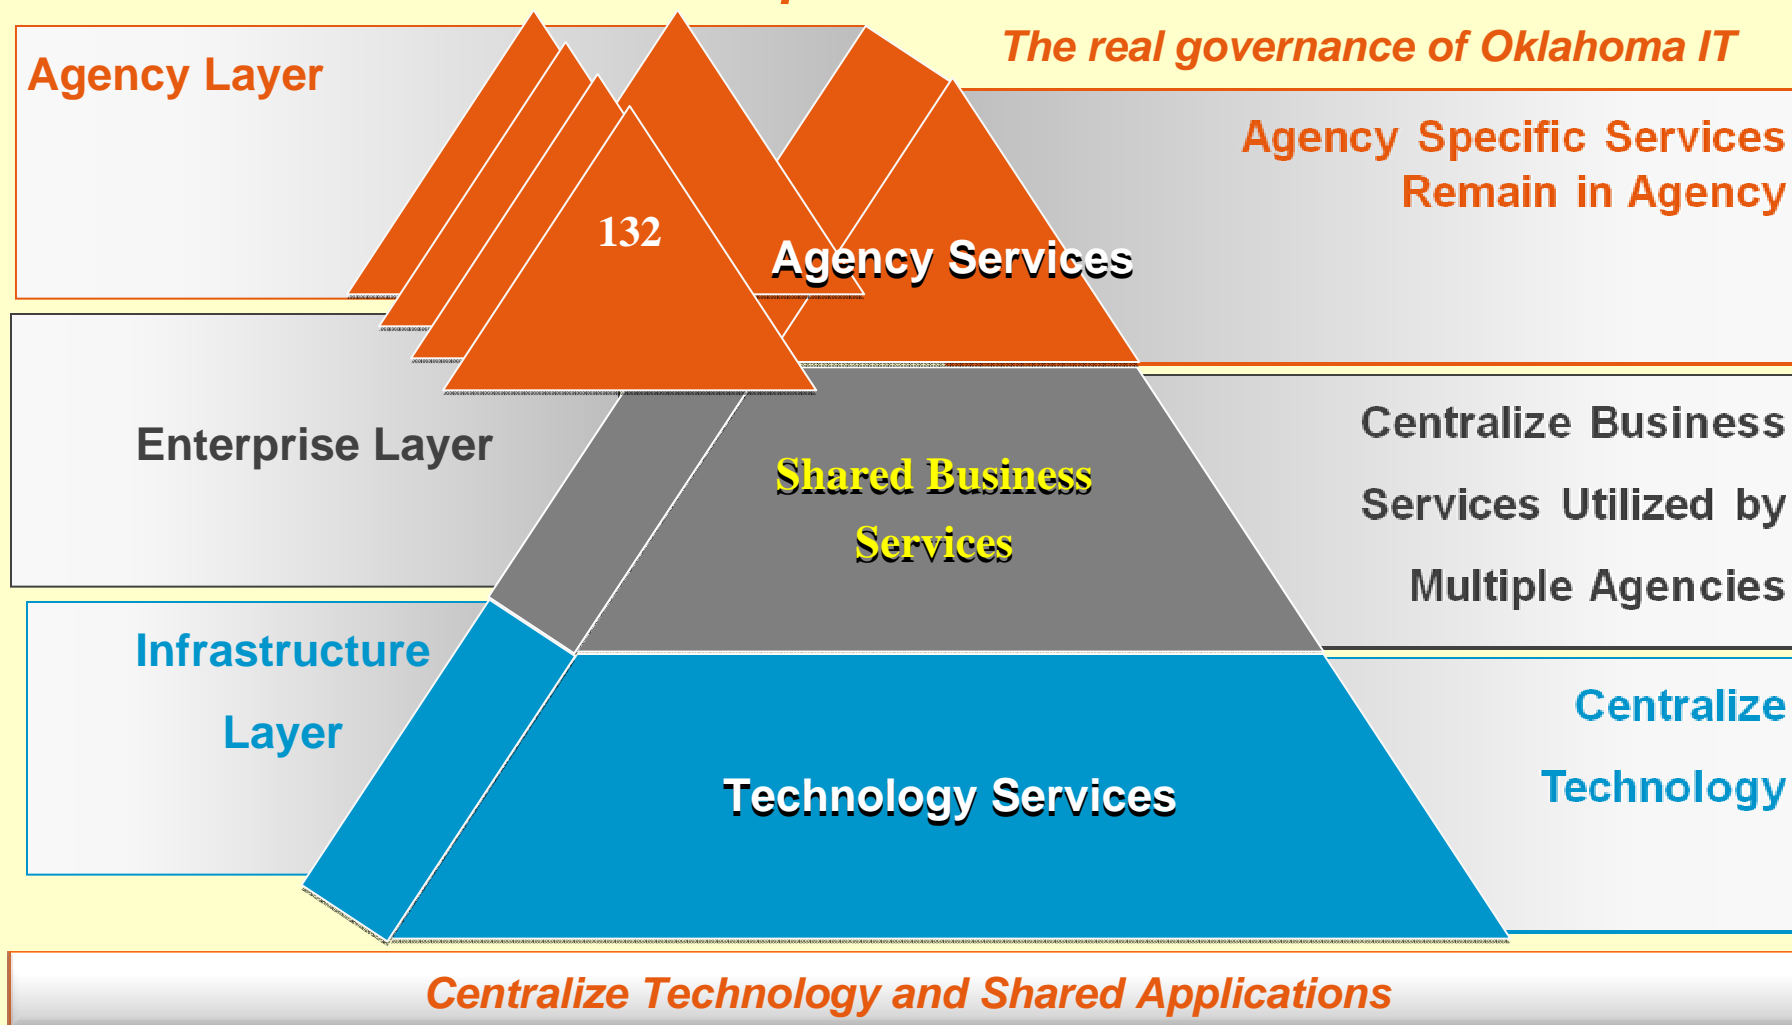

- **Enterprise or Organizational Governance**
  - **Management of Resources**
- **Data Governance**
  - **Life-cycle Data Management Through Stewardship**

# **PRESENT STATE OF GI GOVERNANCE**

- **State Geographic Information Council -Title 82:1501-205.1**

- **State Agencies**
  - **Individual GIS Programs**

# Federated Governance

## *Federated Model of The Enterprise*

# UTILITY FUNCTIONS

- **Base Map Data**
  - **Imagery**
  - **Elevation**
  - **Boundaries**
- **Clearinghouse – One Stop Spatial Library**

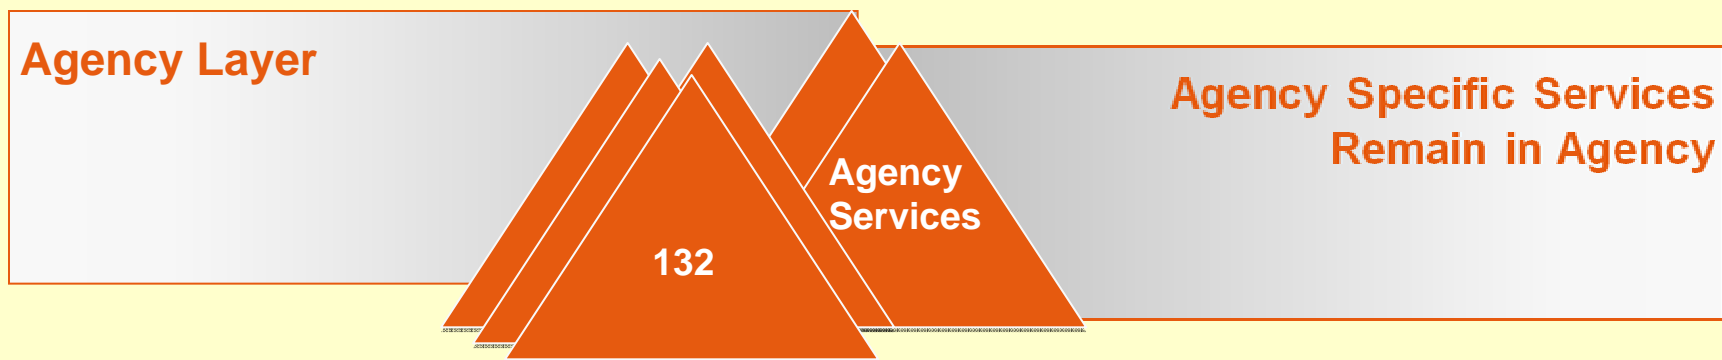

# SHARED FUNCTIONS

- ArcGIS Server
- Desktop Licensing
  - ArcGIS
  - FME
  - MrSid
- Web Services
  - OGC, ArcGIS Server
- Geospatial Application Development
  - Python, .NET, Java
- Spatial Database Administration
- Basic GIS Support for Small Agencies
- Training

# AGENCY FUNCTIONS

- **GIS Activity Supporting Business Processes**
- **Data Stewardship**

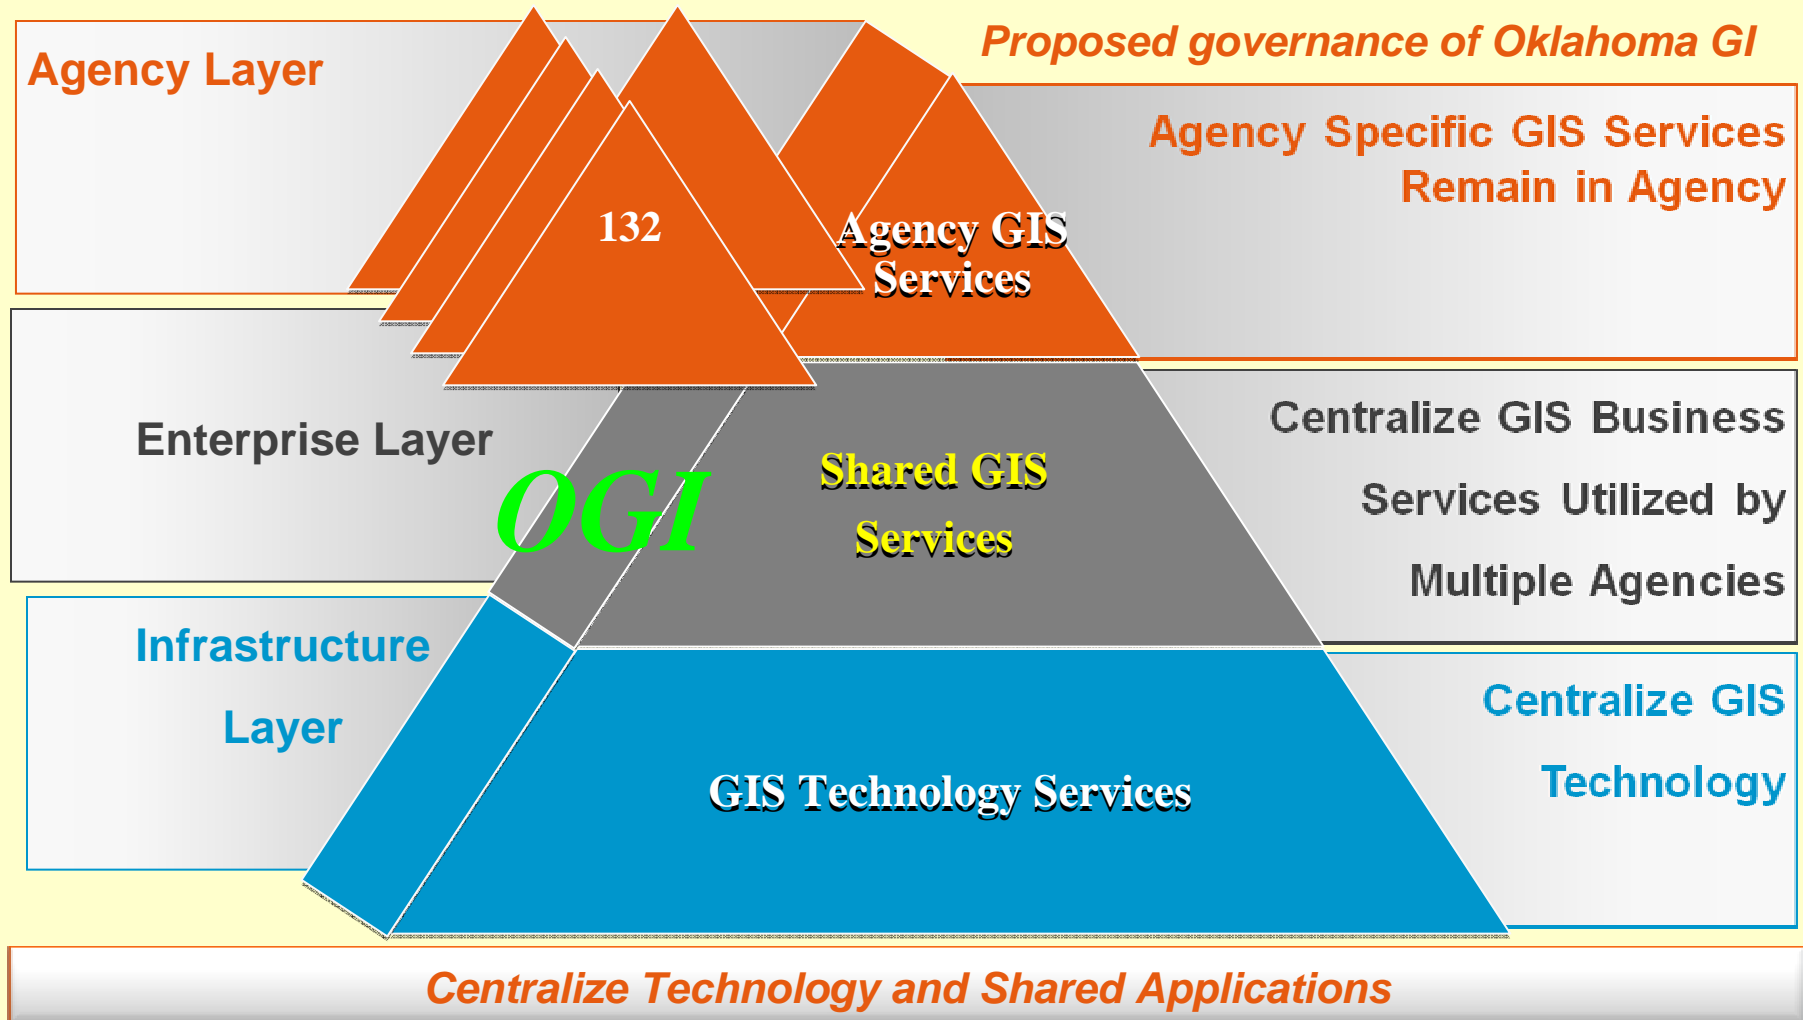

# **OFFICE OF GEOGRAPHIC INFORMATION**

**Currently under the Oklahoma Conservation Commission**

**Given the likely realignment and restructuring of  
State agency GIS functions and services,  
Where should the OGI be located?**
