

## **Update on the Continuing Development of the GeoCIP<sup>®</sup> Program**

Oklahoma Department of Commerce Capital Improvement Planning  
& Center for Spatial Analysis, University of Oklahoma

# Project Team

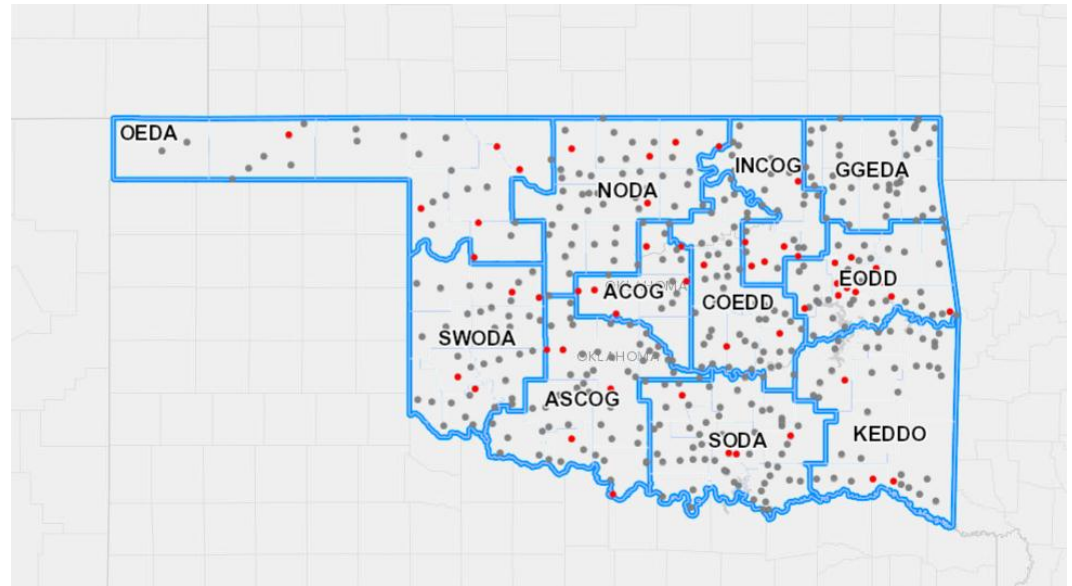

**OKLAHOMA**  
DEPARTMENT OF COMMERCE

- ODOC - Mike Sexton
- CSA – Bill Greenwood, Scott March, Melissa Scott & May Yuan with help from undergraduate assistants Elias Marsee and Morgan Tucker
- Special thanks to Jana Harris of SWODA for consulting

# Project Partners

- 11 Regional Partners
  - OK Councils of Government
- Local Municipalities
  - more than 400 participating communities

# Capital Improvement Planning

State Capital Improvement Planning Act of 1992 (HB 2375)

“There is hereby created a *Long-Range Capital Planning Commission* to advise and assist the Legislature in providing for capital facilities in this state...”

- Provides funds for capital improvement planning (CIP) to assist rural communities

# GeoCIP<sup>®</sup> Program

Geographical Information Systems (GEO)  
&  
Capitol Improvement Planning (CIP)

- GeoCIP<sup>®</sup> is a standardized process for creating a GIS based inventory of local government assets to be used in annually evaluating asset conditions, setting improvement priorities for assets & updating the local capital budget.

# GeoCIP® Modernization Initiatives

- Began in 2008
- Update municipal asset information
- Increase regional COG GIS utility
- Standardize data
- Develop statewide relational geodatabase

# Partnering with OU CSA

- Since 2008 ODOC has partnered with CSA to develop a series of customized training sessions for regional COG personnel
- Developed a statewide geodatabase for data integration, analysis and CIP reporting
- Developed tools to standardized and integrate data from individual communities
